

Advisory Services

As your business matures and networks change, you may be challenged to keep pace with regulatory compliance as well as the rising threat of cybercrime. In order to ensure that your business' crown jewels are protected, you need to assess your security programs through three separate lenses:

<p>Legislation & Regulation</p> <ul style="list-style-type: none"> ▶ Are you aware of which regulations apply to your organization? ▶ Are you meeting your obligations? ▶ What are the risks involved? 	<p>Privacy Posture</p> <ul style="list-style-type: none"> ▶ What privacy processes are in place today? ▶ Are there effective controls in place to protect the organization and its clients? 	<p>Security Controls & Maturity</p> <ul style="list-style-type: none"> ▶ How are you protecting your data assets? ▶ What is the maturity level of your current security program? ▶ How does the security program stack up against others?
--	--	---

Herjavec Group's Advisory Services help you find the answer to these questions by identifying the gaps in your current security posture - where you are most vulnerable to cyber threats and attacks.

We recommend beginning your Security Journey with one of our Security Workshops to review your security strategy, service needs and technology investments. Once we have a solid understanding of your current security architecture as well as your detective and preventative controls we can align on the Advisory Services Engagements that should be prioritized.

Our Advisory Services experts have decades of experience across Governance, Risk and Compliance, Privacy and Payment Card Industry Compliance.

- ✔ Following the Advisory engagement, Herjavec Group will provide an executive summary of findings, and a detailed technical report with recommendation and actionable steps for remediation.
- ✔ We will also highlight which Security Assessments & Testing Services should be leveraged going forward and on what cadence, including Penetration Testing, and Red Team Operations.

Customer Success Story

Payment Processor Supporting Billions of Transactions Per Year

Challenges Addressed

- ▶ PCI DSS Compliance
- ▶ Tight timelines
- ▶ Lack of internal resources

Services Leveraged

- ▶ Compliance consulting
- ▶ PCI Audit

How We Delivered

- ▶ Ability to navigate the client's highly complex environment:
 - ▶ 2 data centers, 3 offices, 3 call centers, and over 1,000 systems
- ▶ Leveraged two internal teams to provide the consulting service and onsite audit within 2 months
- ▶ Helped the client build a stronger control framework internally to facilitate a smoother and successful audit the following year

"Herjavec Group is truly focused on information security. It is the focus that allows [them] to provide us with the required level of expertise in this rapidly changing world. I like to consider some key business partners that we have as trusted advisors and Herjavec Group is one of them."

- CIO, National Medical Services Provider
